Student Fashion

what's your OOTD?

Introduction

Our app is a smart fashion assistant designed especially for students. It helps users choose the perfect outfit based on the current weather using clothes from their own digital wardrobe. Each item is tagged (like rainy, sunny, or casual), making it easy for the app to suggest suitable combinations. Users can also save their favorite outfits and explore trending styles for inspiration, making daily outfit planning quick, fun, and personalized.

Apps Main Features

1 Weather-Based Outfit Suggestions

The app recommends outfits based on real-time weather conditions, helping users dress comfortably and appropriately every day.

3 Outfit Saving & Favorites

Users can save outfit combinations they like, making it easy to reuse them or plan outfits ahead of time.

2 Digital Wardrobe with Tags

Users can upload their own clothes and organize them using tags like "rainy," "sunny," or "casual," making outfit selection more accurate and personalized.

4 Trending Outfit Inspiration

The app showcases popular and trending outfits from other users, giving inspiration and helping users stay stylish.

Target Audience

[Home](#)[About Us](#)[Service](#)[Contact](#)

1. Students (Primary Users)

High school and college students looking for quick outfit ideas

2. Busy Individuals

Those who want fast, hassle-free outfit suggestions before going out

3. Fashion-Conscious Youth

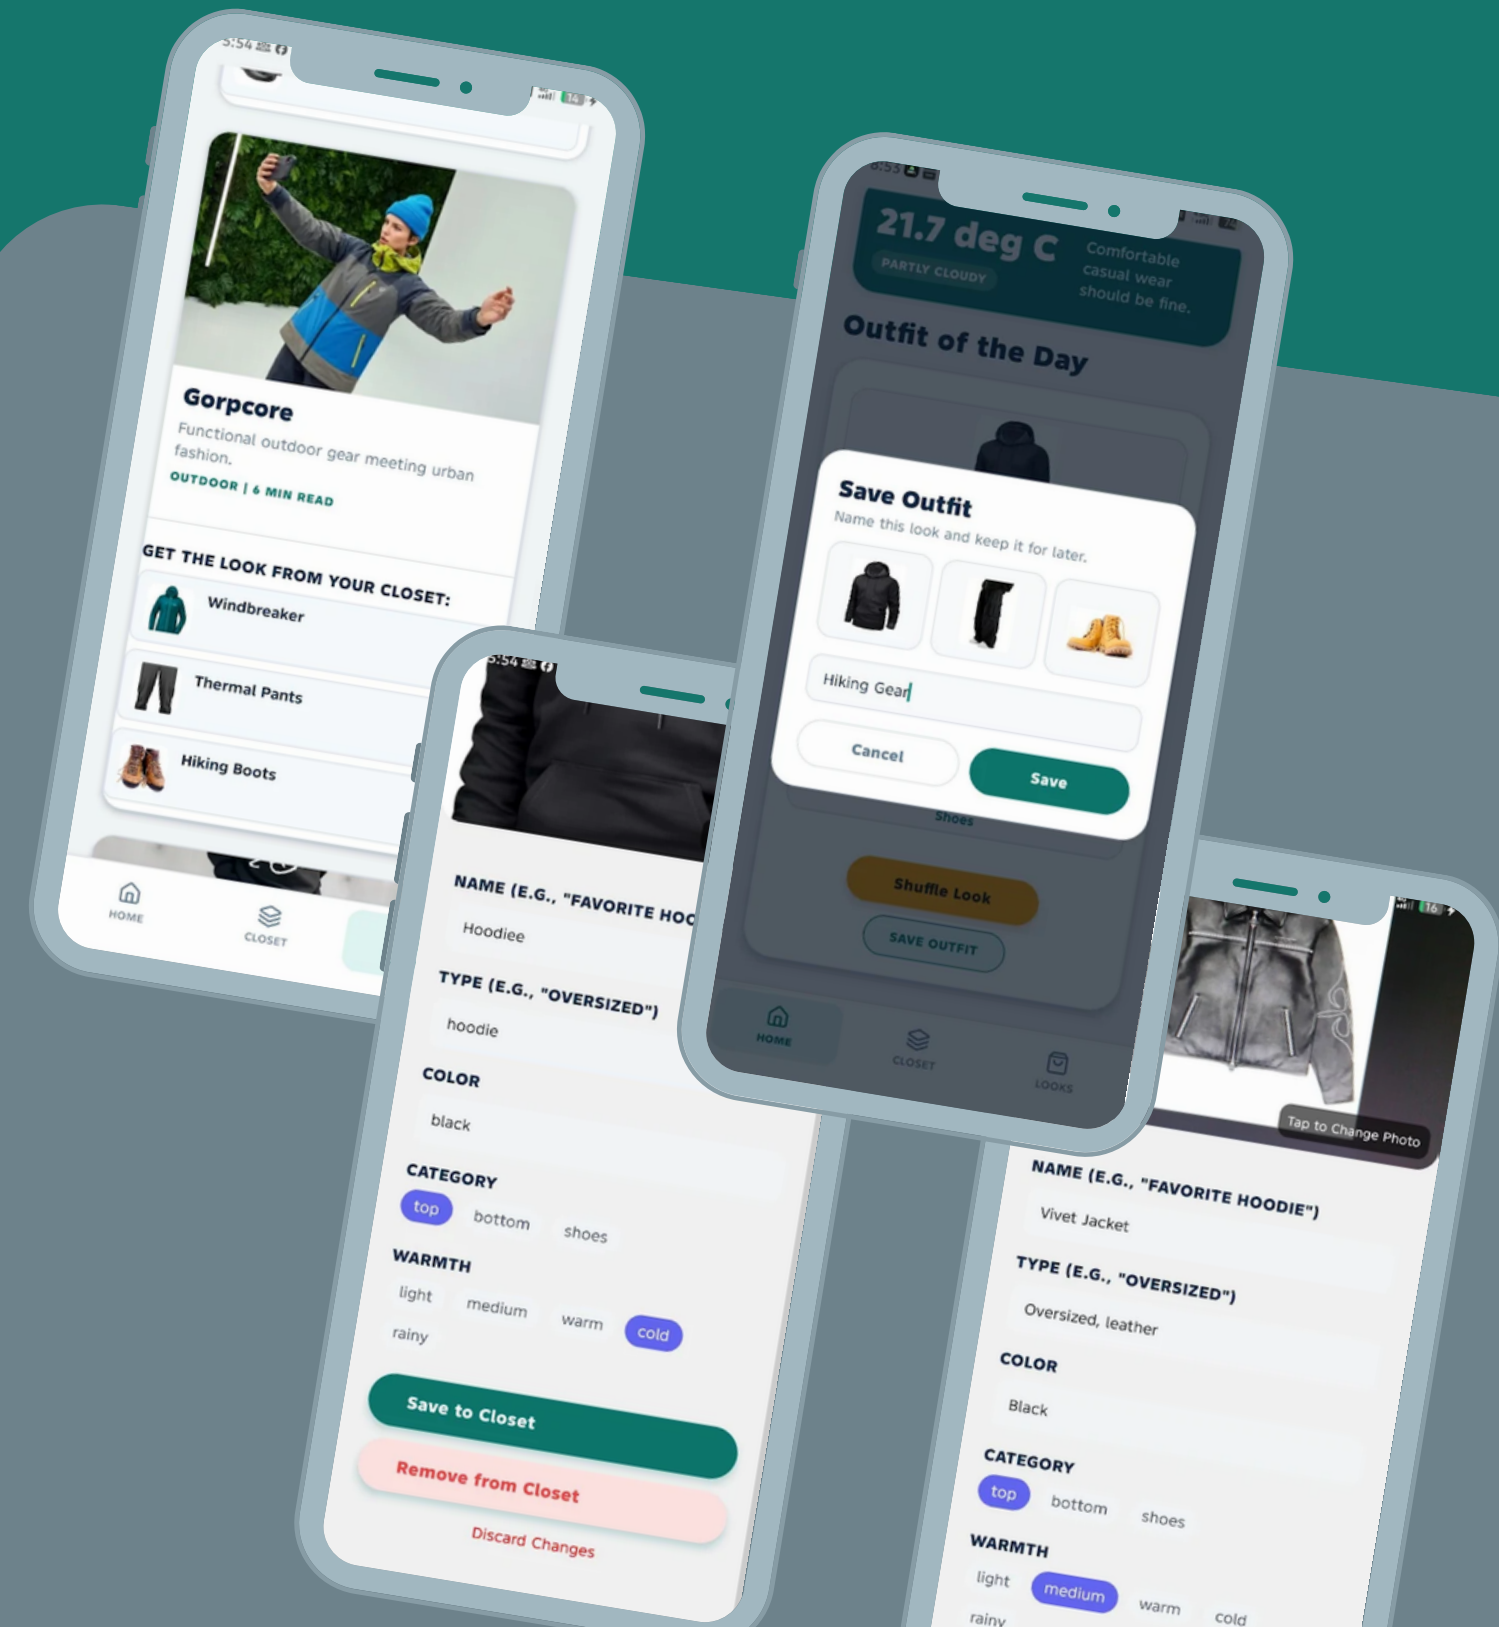

Teens and young adults who enjoy styling and staying trendy

4. Budget-Conscious Users

Users who prefer mixing and matching existing clothes instead of buying new ones

5. Trend Seekers

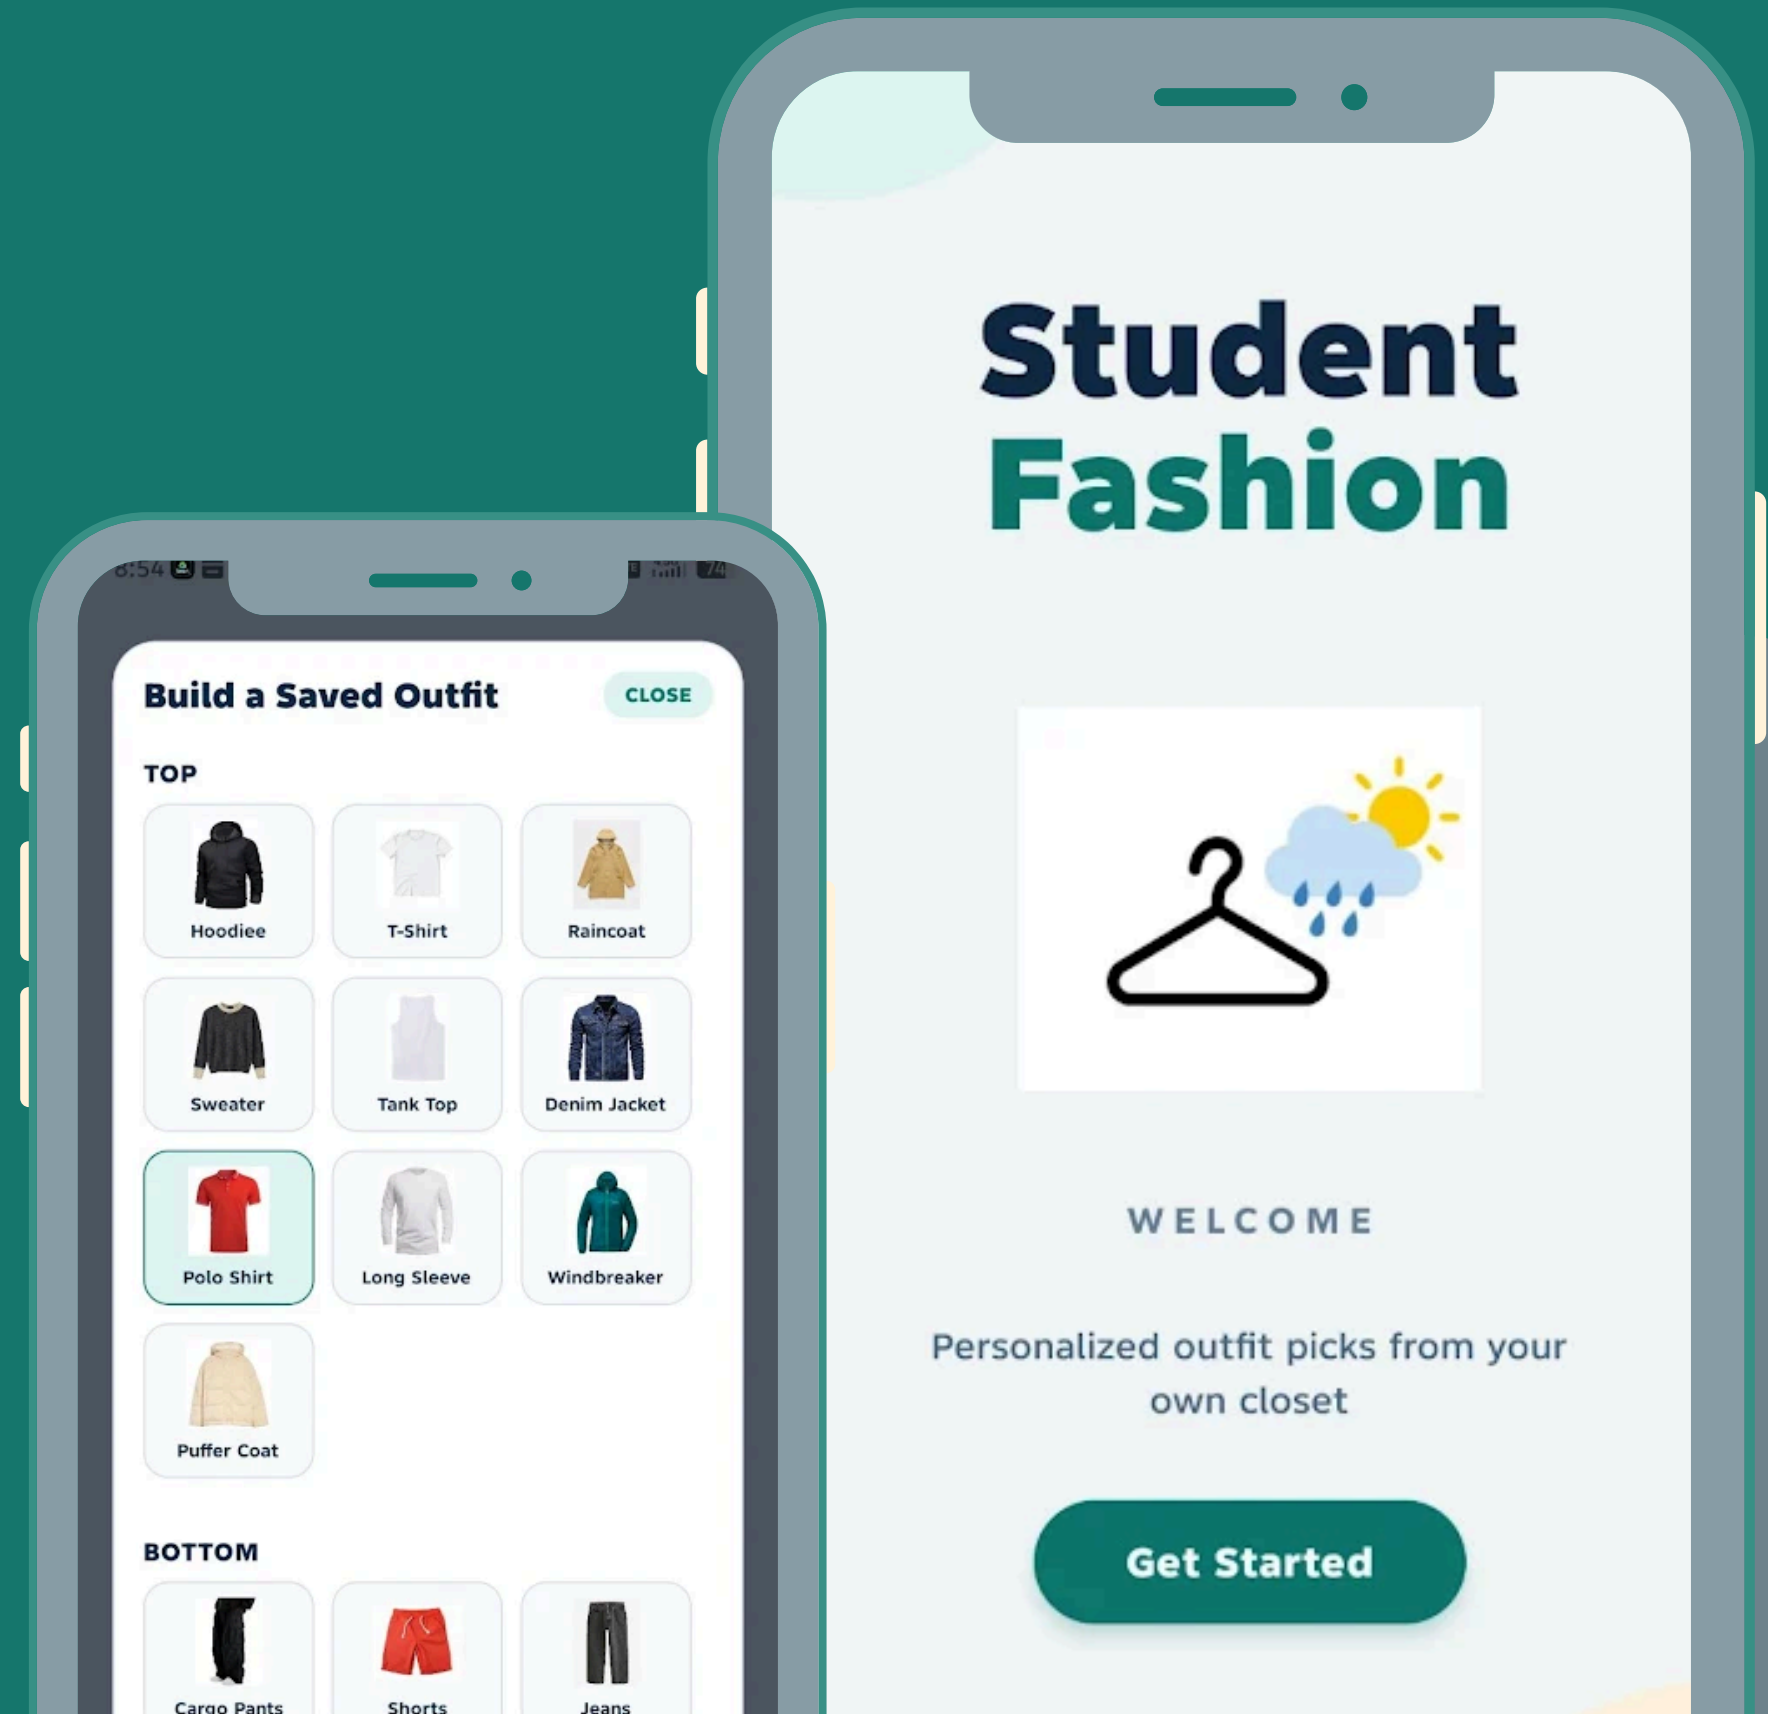

Users who like exploring and following popular outfit ideas from others
